Biography

Dale Chihuly

Born in 1941 in Tacoma, Washington, Dale Chihuly was introduced to glass while studying interior design at the University of Washington. After graduating in 1965, Chihuly enrolled in the first glass program in the country, at the University of Wisconsin. He continued his studies at the Rhode Island School of Design (RISD), where he later established the glass program and taught for more than a decade.

In 1968, after receiving a Fulbright Fellowship, he went to work at the Venini glass factory in Venice. There he observed the team approach to blowing glass, which is critical to the way he works today. In 1971, Chihuly cofounded Pilchuck Glass School in Washington State. With this international glass center, Chihuly has led the avant-garde in the development of glass as a fine art.

His work is included in more than 200 museum collections worldwide. He has been the recipient of many awards, including two fellowships from the National Endowment for the Arts and thirteen honorary doctorates.

Chihuly has created more than a dozen well-known series of works, among them, *Cylinders* and *Baskets* in the 1970s; *Seaforms*, *Macchia*, *Persians*, and *Venetians* in the 1980s; *Niijima Floats* and *Chandeliers* in the 1990s; and *Fiori* in the 2000s. He is also celebrated for large architectural installations. In 1986, he was honored with a solo exhibition, *Dale Chihuly objets de verre*, at the Musée des Arts Décoratifs, Palais du Louvre, in Paris. In 1995, he began *Chihuly Over Venice*, for which he created sculptures at glass factories in Finland, Ireland, and Mexico, then installed them over the canals and piazzas of Venice.

In 1999, Chihuly started an ambitious exhibition, *Chihuly in the Light of Jerusalem*; more than 1 million visitors attended the Tower of David Museum to view his installations. In 2001, the Victoria and Albert Museum in London curated the exhibition *Chihuly at the V&A*. His lifelong fascination for glasshouses has grown into a series of exhibitions within botanical settings. The *Garden Cycle* began in 2001 at the Garfield Park Conservatory, Chicago, and continued at several locations, among them the Royal Botanic Gardens, Kew, in London, in 2005 and 2019, and the New York Botanical Garden, Bronx, in 2006 and again in 2017.

Meanwhile, Chihuly has exhibited at other venues including the de Young Museum, San Francisco, in 2008; the Museum of Fine Arts, Boston, in 2011; the Virginia Museum of Fine Arts, Richmond, in 2012; the Montreal Museum of Fine Arts, in 2013; the Royal Ontario Museum, Toronto, in 2016; the Crystal Bridges Museum of American Art, Bentonville, Arkansas, in 2017; the Groninger Museum, Groningen, the Netherlands, in 2018; and Artis—Naples, The Baker Museum, Naples, Florida, in 2020. *Chihuly Garden and Glass*, a major long-term exhibition, opened in Seattle in 2012.

- 1970 While Chihuly and friends shut down RISD to protest the U.S. offensive in Cambodia, he and student John Landon develop ideas for an alternative school in the Pacific Northwest, inspired by Haystack Mountain School of Crafts.
- 1971 On the site of a tree farm north of Seattle owned by art patrons Anne Gould Hauberg and John Hauberg, the Pilchuck Glass School experiment is started. *Pilchuck Pond*, Chihuly's first environmental installation at the school, is created that summer. In the fall, at RISD, he makes *20,000 Pounds of Ice and Neon*, *Glass Forest #1*, and *Glass Forest #2* with James Carpenter, installations that prefigure later environmental works by Chihuly.
- 1972 Collaborates with James Carpenter on more large-scale architectural projects over the next few years. They create *Rondel Door* and *Cast Glass Door* at Pilchuck. In Providence, they have a conceptual breakthrough with *Dry Ice*, *Bent Glass and Neon*.
- 1974 Works with James Carpenter and a group of students at Pilchuck to develop a technique for picking up glass thread drawings and incorporating them into larger glass pieces.
- 1975 At RISD, begins *Navajo Blanket Cylinder* series. Kate Elliott and, later, Flora C. Mace fabricate the complex thread drawings for his artwork. He receives the first of two National Endowment for the Arts Visual Artists' Fellowships. Becomes artist-in-residence with Seaver Leslie at Artpark, an annual arts program on the Niagara Gorge in New York State. Begins *Irish Cylinders* and *Ulysses Cylinders* with Leslie and Mace.
- 1976 An automobile accident in England leaves him, after weeks in the hospital and 256 stitches in his face, without sight in his left eye and with permanent damage to his right ankle and foot. After recuperating, he returns to Providence to serve as head of the Department of Sculpture and the Program in Glass at RISD. Henry Geldzahler, curator of contemporary art at the Metropolitan Museum of Art in New York, acquires three *Navajo Blanket Cylinders* for the museum's collection—a turning point in Chihuly's career and the start of the artist's friendship with both the curator and the museum director then, Thomas Hoving.
- 1977 His *Basket* series—inspired by Northwest Native American baskets he sees at Washington State History Museum in Tacoma—is first made at Pilchuck with Benjamin Moore as gaffer and exhibited at Seattle Art Museum. Continues teaching at both RISD and Pilchuck.
- 1978 Meets William Morris at Pilchuck, and the two begin a close, eight-year working relationship. Another career milestone is a solo exhibition at the Renwick Gallery, a branch of the Smithsonian American Art Museum, Washington, D.C.
- 1979 Dislocates his shoulder in a bodysurfing accident and relinquishes the gaffer position for good. William Morris becomes his chief gaffer for several years. Chihuly begins to make drawings as a way to communicate his designs.
- 1980 Resigns his teaching position at RISD but returns periodically in the 1980s as artist-in-residence. Begins *Seaform* series. Creates his first architectural commission: windows for Shaare Emeth Synagogue in St. Louis.
- 1981 Begins *Macchia* series.
